

```
doris::stream_load  
::VNodeChannel::close_wait
```

```
graph LR; A["doris::stream_load  
::VNodeChannel::close_wait"] --> B["set_tablets_received_rows"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'doris::stream_load' on the first line and '::VNodeChannel::close_wait' on the second line. The right box is gray with a black border and contains the text 'set_tablets_received_rows' on a single line.

```
set_tablets_received_rows
```
