

doris::BitReader::GetValue

```
graph LR; A[doris::BitReader::GetValue] --> B[TrailingBits]
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is white with a black border and contains the text 'doris::BitReader::GetValue'. The right box is gray with a black border and contains the text 'TrailingBits'. A blue arrow points from the right side of the left box to the left side of the right box.
