

doris::vectorized::  
BlockReader::update  
\_profile

```
graph LR; A["doris::vectorized::  
BlockReader::update  
_profile"] --> B["update_profile"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'doris::vectorized::', 'BlockReader::update', and '\_profile' on three lines. The right box is gray with a black border and contains the text 'update\_profile' on a single line.

update\_profile
