

/Users/dabowang/be
_all/gutil/strings/memutil.h

```
graph BT; A["/Users/dabowang/be_all/gutil/strings/memutil.h"] --> B["/Users/dabowang/be_all/gutil/strings/memutil.cc"]; A --> C["/Users/dabowang/be_all/gutil/strings/stringpiece.cc"];
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: /Users/dabowang/be_all/gutil/strings/memutil.h. Below it are two white boxes representing source files: /Users/dabowang/be_all/gutil/strings/memutil.cc on the left and /Users/dabowang/be_all/gutil/strings/stringpiece.cc on the right. Two blue arrows point from the source files up to the header file, indicating that both source files include or depend on the header file.
