\_all/http/action/compaction  
\_action.h

```
graph BT; A["/Users/dabowang/be_all/http/action/compaction_action.cpp"] --> C["/Users/dabowang/be_all/http/action/compaction_action.h"]; B["/Users/dabowang/be_all/service/http_service.cpp"] --> C;
```

The diagram illustrates a header file inclusion relationship. At the top is a gray box representing the header file `/Users/dabowang/be_all/http/action/compaction_action.h`. Below it are two white boxes representing source files. A blue arrow points from the left source file, `/Users/dabowang/be_all/http/action/compaction_action.cpp`, to the header file. Another blue arrow points from the right source file, `/Users/dabowang/be_all/service/http_service.cpp`, to the same header file.
