

/Users/dabowang/be
_all/glibc-compatibility
/musl/exp_data.h

```
graph TD; A["/Users/dabowang/be_all/glibc-compatibility/musl/exp_data.h"] --> B["musl_features.h"]; A --> C["stdint.h"]
```

The diagram illustrates a file path at the top, which branches into two arrows pointing to two separate files below. The top box is dark gray and contains the path. Two blue arrows originate from the bottom of this box, pointing to two boxes below. The left box is white and contains 'musl_features.h', while the right box is light gray and contains 'stdint.h'.

musl_features.h

stdint.h
