

date_add_interval

from_date_daynr

get_date_from_daynr

```
graph LR; A[date_add_interval] --> C[get_date_from_daynr]; B[from_date_daynr] --> C;
```

The diagram illustrates a data flow where two separate inputs, 'date_add_interval' and 'from_date_daynr', are combined to produce a single output, 'get_date_from_daynr'. The inputs are represented by white boxes with black borders, while the output is a gray box with a black border. Blue arrows indicate the direction of the flow from the inputs to the output.
