

StringPrintfVector

```
graph LR; A[StringPrintfVector] --> B[StringPrintf]; B --> C[StringAppendV];
```

The diagram illustrates a three-step process flow. It begins with a box labeled 'StringPrintfVector' on the left, which is shaded gray. A blue arrow points from this box to a second box labeled 'StringPrintf' in the center. This second box is white with a black border. Another blue arrow points from the 'StringPrintf' box to a third box on the right labeled 'StringAppendV', which is also white with a black border. The boxes are arranged horizontally and connected by arrows pointing from left to right.
