merge

```
graph LR; A["doris::vectorized::IAggregateFunctionHelper::merge_vec"] --> C[merge]; B["doris::vectorized::IAggregateFunctionHelper::merge_vec_selected"] --> C;
```

The diagram illustrates two function pointers on the left, each enclosed in a white box with a black border. The top box contains the text 'doris::vectorized::IAggregateFunctionHelper::merge_vec'. The bottom box contains the text 'doris::vectorized::IAggregateFunctionHelper::merge_vec_selected'. Two blue arrows originate from the right side of these boxes and point towards a single gray box on the right labeled 'merge'.
