

doris::Metric::to\_prometheus

doris::HistogramMetric  
::to\_prometheus

labels\_to\_string

```
graph LR; A[doris::Metric::to_prometheus] --> C[labels_to_string]; B[doris::HistogramMetric::to_prometheus] --> C;
```

The diagram illustrates a dependency or reuse of a function. Two source functions, 'doris::Metric::to\_prometheus' and 'doris::HistogramMetric::to\_prometheus', are shown in white boxes on the left. Blue arrows from both of these boxes point to a single target box on the right labeled 'labels\_to\_string', which has a gray background. This indicates that both source functions utilize the 'labels\_to\_string' function.
