

serialize

```
graph LR; A[serialize] --> B[doris::vectorized::write_var_uint]
```

A diagram showing a function call. On the left, a gray rectangular box contains the word "serialize". A blue arrow points from the right side of this box to the left side of a larger white rectangular box on the right. This white box contains the text "doris::vectorized::write_var_uint" in two lines.

doris::vectorized::
write_var_uint
