

get_next_block

_fill_block_impl

_to_mysql_data_type
_string

```
graph LR; A[get_next_block] --> B[_fill_block_impl]; B --> C[_to_mysql_data_type_string];
```

The diagram illustrates a three-step process flow. It begins with a box labeled 'get_next_block', followed by an arrow pointing to a box labeled '_fill_block_impl', and finally an arrow pointing to a larger, shaded box labeled '_to_mysql_data_type_string'.
