

/Users/dabowang/be
_all/util/mustache/mustache.h

```
graph BT; A["/Users/dabowang/be_all/http/web_page_handler.cpp"] --> C["/Users/dabowang/be_all/util/mustache/mustache.h"]; B["/Users/dabowang/be_all/util/mustache/mustache.cc"] --> C;
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: /Users/dabowang/be_all/util/mustache/mustache.h. Below it are two white boxes representing source files. The left box is /Users/dabowang/be_all/http/web_page_handler.cpp and the right box is /Users/dabowang/be_all/util/mustache/mustache.cc. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
