

__math_xflow

```
graph LR; A[__math_xflow] --> B[eval_as_double]
```

The diagram consists of two rectangular boxes connected by a horizontal blue arrow. The left box is filled with a dark gray color and contains the text '__math_xflow'. The right box is white with a thin gray border and contains the text 'eval_as_double'. The blue arrow points from the right side of the left box to the left side of the right box, indicating a flow or call from the left component to the right component.

eval_as_double
