test_element

```
graph LR; A[doris::CommonFindOp::find_batch] --> C[test_element]; B[doris::CommonFindOp::find_batch_olap_engine] --> C;
```

The diagram illustrates a relationship between two functions and a test element. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'doris::CommonFindOp::find_batch' and the bottom box contains 'doris::CommonFindOp::find_batch_olap_engine'. On the right, there is a gray rectangular box with a black border containing the text 'test_element'. Two blue arrows originate from the right side of the top and bottom white boxes and point towards the left side of the gray box, indicating that both functions are associated with or tested by the 'test_element'.
