int_to_str

```
graph LR; A[doris::vectorized::VecDateTimeValue::to_format_string] --> C[int_to_str]; B[doris::vectorized::DateV2Value::to_format_string] --> C;
```

The diagram illustrates a code transformation or optimization. Two source functions, `doris::vectorized::VecDateTimeValue::to_format_string` and `doris::vectorized::DateV2Value::to_format_string`, are shown in white boxes on the left. Blue arrows point from each of these boxes to a single gray box on the right labeled `int_to_str`, indicating that both source functions are being replaced or simplified by the `int_to_str` function.
