

/Users/dabowang/be
_all/pipeline/exec/analytic
_sink_operator.h

```
graph BT; A["/Users/dabowang/be_all/pipeline/exec/analytic_sink_operator.h"] --> B["/Users/dabowang/be_all/pipeline/exec/analytic_sink_operator.cpp"]; A --> C["/Users/dabowang/be_all/pipeline/pipeline_fragment_context.cpp"];
```

The diagram illustrates a header file inclusion relationship. At the top, a gray box represents the header file `_sink_operator.h`. Below it, two white boxes represent source files: `_sink_operator.cpp` on the left and `_fragment_context.cpp` on the right. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header.
