/memutil.h

```
graph BT; A["/Users/dabowang/doris<br>/be/src/gutil/strings<br>/memutil.cc"] --> C["/Users/dabowang/doris<br>/be/src/gutil/strings<br>/memutil.h"]; B["/Users/dabowang/doris<br>/be/src/gutil/strings<br>/stringpiece.cc"] --> C;
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: /Users/dabowang/doris/be/src/gutil/strings/memutil.h. Below it are two white boxes representing source files. The left box is /Users/dabowang/doris/be/src/gutil/strings/memutil.cc, and the right box is /Users/dabowang/doris/be/src/gutil/strings/stringpiece.cc. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
