

build

get_return_type

get_return_type_without
_low_cardinality

```
graph LR; A[build] --> B[get_return_type]; B --> C[get_return_type_without_low_cardinality];
```

The diagram illustrates a three-step process flow. It begins with a box labeled 'build', followed by an arrow pointing to a box labeled 'get_return_type'. A second arrow then points from 'get_return_type' to a final box labeled 'get_return_type_without_low_cardinality'. The final box is shaded gray, while the others are white.
