

/Users/dabowang/be  
\_all/vec/common/mremap.h

```
graph TD; A["/Users/dabowang/be_all/vec/common/mremap.h"] --> B["sys/types.h"]; A --> C["cstddef"]; A --> D["sys/mman.h"];
```

The diagram illustrates the header file dependencies for `mremap.h`. A central box at the top represents the source file, with three blue arrows pointing downwards to three separate boxes representing the headers it includes: `sys/types.h`, `cstddef`, and `sys/mman.h`.

sys/types.h

cstddef

sys/mman.h
