

serialize_without_key
_to_column

```
graph LR; A[serialize_without_key_to_column] --> B[doris::vectorized::  
IAggregateFunction::  
serialize_without_key_to_column];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is gray and contains the text 'serialize_without_key' on the first line and '_to_column' on the second line. The right box is white with a black border and contains the text 'doris::vectorized::' on the first line, 'IAggregateFunction::' on the second line, 'serialize_without_key' on the third line, and '_to_column' on the fourth line.
