_pred.h

```
graph BT; A["/Users/dabowang/be_all/vec/exec/scan/vscan_node.cpp"] --> C["/Users/dabowang/be_all/vec/exprs/vcompound_pred.h"]; B["/Users/dabowang/be_all/vec/exprs/vexpr.cpp"] --> C;
```

A diagram showing three file boxes. At the top is a grey box containing the path `/Users/dabowang/be_all/vec/exprs/vcompound_pred.h`. Below it are two white boxes. The left box contains `/Users/dabowang/be_all/vec/exec/scan/vscan_node.cpp` and the right box contains `/Users/dabowang/be_all/vec/exprs/vexpr.cpp`. Two blue arrows point from the bottom of each white box to the bottom of the grey box, indicating that both source files include or depend on the header file.
