```

The diagram illustrates a mapping from two different Doris functions to a single target. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'doris::ToStringFromUnixMicros'. The bottom box contains the text 'doris::ToUtcStringFromUnixMicros' on two lines. On the right, there is a gray rectangular box with a black border containing the text 'TimepointFromUnixMicros'. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating that both functions map to the same target.
