

add_rows

```
graph LR; A[add_rows] --> B["doris::vectorized::  
Block::get_columns_with  
_type_and_name"]; style A fill:#808080,stroke:#333,stroke-width:1px; style B fill:#fff,stroke:#333,stroke-width:1px;
```

The diagram illustrates a function call. On the left, a gray rectangular box contains the text 'add_rows'. A blue arrow points from this box to a larger white rectangular box on the right. This white box contains the text 'doris::vectorized::' followed by 'Block::get_columns_with' and '_type_and_name' on separate lines.
