

```
doris::vectorized::  
StDistanceSphere::execute
```

```
graph LR; A["doris::vectorized::  
StDistanceSphere::execute"] --> B["ComputeDistance"]
```

A diagram showing a call to the `StDistanceSphere::execute` method within the `doris::vectorized::` namespace. A blue arrow points from this call to a box labeled `ComputeDistance`, indicating that this method performs the distance computation.

ComputeDistance
