

start

```
graph LR; start --> func["_storage_medium_migrate<br/>_worker_thread_callback"]
```

The diagram consists of two rectangular boxes connected by a blue arrow. The first box on the left is white with a black border and contains the text 'start'. A blue arrow points from the right side of this box to the left side of a second box. The second box is gray with a black border and contains two lines of text: '_storage_medium_migrate' on the top line and '_worker_thread_callback' on the bottom line.

_storage_medium_migrate
_worker_thread_callback
