

doris::ChunkAllocator
::allocate_align

doris::ChunkAllocator
::free

get_current_core

```
graph LR; A["doris::ChunkAllocator::allocate_align"] --> C["get_current_core"]; B["doris::ChunkAllocator::free"] --> C;
```

The diagram illustrates two function calls to `get_current_core`. On the left, there are two white rectangular boxes with black borders. The top box contains the text `doris::ChunkAllocator::allocate_align` and the bottom box contains `doris::ChunkAllocator::free`. On the right, there is a gray rectangular box containing the text `get_current_core`. Two blue arrows originate from the right side of the top and bottom boxes and point towards the left side of the gray box, indicating that both functions call `get_current_core`.
