

/Users/dabowang/doris  
/be/src/http/action/metrics  
\_action.h

```
graph BT; A["/Users/dabowang/doris  
/be/src/http/action/metrics  
_action.h"] --> B["/Users/dabowang/doris  
/be/src/http/action/metrics  
_action.cpp"]; A --> C["/Users/dabowang/doris  
/be/src/service/http  
_service.cpp"];
```

The diagram illustrates a header file inclusion relationship. At the top, a gray box represents the header file `_action.h`. Below it, two white boxes represent source files: `_action.cpp` on the left and `_service.cpp` on the right. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
