VMysqlResultWriter::  
_add_one_cell
```

```
graph LR; A["doris::vectorized::  
VMysqlResultWriter::  
_add_one_cell"] --> B["push_float"]
```

A diagram illustrating a function call. On the left, a white rectangular box with a black border contains the C++ code snippet: `doris::vectorized::VMysqlResultWriter::_add_one_cell`. A blue arrow points from the right side of this box to a gray rectangular box on the right. The gray box contains the text `push_float`, which is the name of the C function being called.

`push_float`
