_reader.h

```
graph BT; A["/Users/dabowang/doris  
/be/src/io/fs/hdfs_file_reader.h"] <-- B["/Users/dabowang/doris  
/be/src/io/fs/hdfs_file_reader.cpp"]; A <-- C["/Users/dabowang/doris  
/be/src/io/fs/hdfs_file_system.cpp"];
```

The diagram illustrates a header file inclusion relationship. At the top is a gray box representing the header file `/Users/dabowang/doris/be/src/io/fs/hdfs_file_reader.h`. Below it are two white boxes representing source files: `/Users/dabowang/doris/be/src/io/fs/hdfs_file_reader.cpp` on the left and `/Users/dabowang/doris/be/src/io/fs/hdfs_file_system.cpp` on the right. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
