/be/src/http/action/jeprofile  
\_actions.h

```
graph BT; A["/Users/dabowang/doris  
/be/src/http/action/jeprofile  
_actions.h"] --> B["/Users/dabowang/doris  
/be/src/http/action/jeprofile  
_actions.cpp"]; A --> C["/Users/dabowang/doris  
/be/src/service/http  
_service.cpp"];
```

The diagram illustrates a header file inclusion relationship. A central gray box at the top represents the header file `_actions.h`. Two white boxes at the bottom represent source files: `_actions.cpp` on the left and `_service.cpp` on the right. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
