/topn\_sorter.h

```
graph BT; A["/Users/dabowang/doris<br>/be/src/vec/common/sort<br>/topn_sorter.h"] --> B["/Users/dabowang/doris<br>/be/src/vec/common/sort<br>/topn_sorter.cpp"]; A --> C["/Users/dabowang/doris<br>/be/src/vec/exec/vsort<br>_node.cpp"];
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: /Users/dabowang/doris/be/src/vec/common/sort/topn\_sorter.h. Below it are two white boxes representing source files. The left box is /Users/dabowang/doris/be/src/vec/common/sort/topn\_sorter.cpp, and the right box is /Users/dabowang/doris/be/src/vec/exec/vsort\_node.cpp. Two blue arrows point from the bottom of each source file box up to the header file box, indicating that both source files include the header file.
