

doris::JsonbUpdater
::updateValue

```
graph LR; A[doris::JsonbUpdater::updateValue] --> B[doris::JsonbUpdater::updateValueInternal]; B --> C[size];
```

The diagram illustrates a three-step process flow. It begins with a box containing the text 'doris::JsonbUpdater::updateValue'. A blue arrow points from this box to a second box containing 'doris::JsonbUpdater::updateValueInternal'. Another blue arrow points from the second box to a third, smaller, gray-shaded box containing the text 'size'.
