

set_all_true

```
graph LR; A[set_all_true] --> B[pad_extra_bits_wit_zeroes]
```

The diagram consists of two rectangular boxes connected by a blue arrow. The first box on the left is white with a black border and contains the text 'set_all_true'. A blue arrow points from the right side of this box to the left side of a second box. The second box is gray with a black border and contains the text 'pad_extra_bits_wit_zeroes'.
