This diagram illustrates the relationship between three source files. At the top is a header file, `/Users/dabowang/be_all/olap/rowset/unique_rowset_id_generator.h`, which is shaded gray. Below it are two source files: `/Users/dabowang/be_all/olap/rowset/unique_rowset_id_generator.cpp` on the left and `/Users/dabowang/be_all/olap/storage_engine.cpp` on the right. Both source files have blue arrows pointing upwards to the header file, indicating that they include or depend on it.
