This diagram illustrates the relationship between three source files. At the top is a header file, `_odbc_scanner.h`, which is included by two source files below it: `_odbc_scan_node.cpp` and `_odbc_scanner.cpp`. The header file is highlighted with a gray background, while the source files have white backgrounds. Blue arrows point from each source file to the header file, indicating the direction of the include relationship.
