A diagram illustrating file dependencies. At the top is a grey box containing the path to a header file: /Users/dabowang/doris/be/src/exec/schema_scanner/schema_schema_privileges_scanner.h. Below it are two white boxes containing the paths to source files: /Users/dabowang/doris/be/src/exec/schema_scanner/schema_scanner.cpp (left) and /Users/dabowang/doris/be/src/exec/schema_scanner/schema_schema_privileges_scanner.cpp (right). Blue arrows point from each source file box up to the header file box, indicating that both source files include this header.
