

/Users/dabowang/doris
/be/src/http/action/stream
_load_2pc.h

```
graph BT; A["/Users/dabowang/doris  
/be/src/http/action/stream  
_load_2pc.cpp"] --> C["/Users/dabowang/doris  
/be/src/http/action/stream  
_load_2pc.h"]; B["/Users/dabowang/doris  
/be/src/service/http  
_service.cpp"] --> C;
```

The diagram illustrates a header file dependency. At the top, a gray box represents the header file `_load_2pc.h`. Below it, two white boxes represent source files. A blue arrow points from the left source file (`_load_2pc.cpp`) to the header file, and another blue arrow points from the right source file (`_service.cpp`) to the header file.

/Users/dabowang/doris
/be/src/http/action/stream
_load_2pc.cpp

/Users/dabowang/doris
/be/src/service/http
_service.cpp
