

```
create_columns_with  
_type_and_name
```

```
graph LR; A[create_columns_with_type_and_name] --> B[doris::RowDescriptor::tuple_descriptors]
```

A diagram showing a mapping from a function name to a Doris RowDescriptor tuple descriptor. A gray box on the left contains the text 'create_columns_with_type_and_name'. A blue arrow points from this box to a white box on the right. The white box contains the text 'doris::RowDescriptor::tuple_descriptors'.

```
doris::RowDescriptor  
::tuple_descriptors
```
