

insert_result_into

```
graph LR; A[insert_result_into] --> B["doris::vectorized::  
IAggregateFunctionDataHelper  
< NTileData, WindowFunctionNTile  
>::data"]; style A fill:#808080,stroke:#333,stroke-width:1px; style B fill:#fff,stroke:#333,stroke-width:1px;
```

A diagram showing a call to the function `insert_result_into`. A grey rectangular box on the left contains the text `insert_result_into`. A blue arrow points from this box to a larger white rectangular box on the right. The white box contains the following C++ code snippet:

```
doris::vectorized::  
IAggregateFunctionDataHelper  
< NTileData, WindowFunctionNTile  
>::data
```
