

apply

```
graph LR; apply[apply] --> value["doris::DecimalV2Value  
::value"]
```

A diagram illustrating a function application. On the left, a gray rectangular box contains the text 'apply'. A blue arrow points from this box to a larger white rectangular box on the right. The white box contains the text 'doris::DecimalV2Value' on the top line and '::value' on the bottom line.

doris::DecimalV2Value
::value
