

/Users/dabowang/be
_all/io/cache/block
/block_lru_file_cache.h

```
graph BT; A["/Users/dabowang/be_all/io/cache/block/block_file_cache_factory.cpp"] --> C["/Users/dabowang/be_all/io/cache/block/block_lru_file_cache.h"]; B["/Users/dabowang/be_all/io/cache/block/block_lru_file_cache.cpp"] --> C;
```

This diagram illustrates the relationship between three source files. At the top is a header file, `block_lru_file_cache.h`, which is included by two source files below it: `block_file_cache_factory.cpp` and `block_lru_file_cache.cpp`. The header file box is shaded gray, while the source file boxes are white. Blue arrows point from each source file box to the header file box.
