

/Users/dabowang/be
_all/pipeline/exec/result
_file_sink_operator.h

```
graph BT; A["/Users/dabowang/be_all/pipeline/exec/result_file_sink_operator.cpp"] --> C["/Users/dabowang/be_all/pipeline/exec/result_file_sink_operator.h"]; B["/Users/dabowang/be_all/pipeline/pipeline_fragment_context.cpp"] --> C;
```

This diagram illustrates the relationship between three source files. At the top, a grey box represents the header file `/Users/dabowang/be_all/pipeline/exec/result_file_sink_operator.h`. Below it, two white boxes represent source files. The left box, `/Users/dabowang/be_all/pipeline/exec/result_file_sink_operator.cpp`, and the right box, `/Users/dabowang/be_all/pipeline/pipeline_fragment_context.cpp`, both have blue arrows pointing upwards to the header file, indicating that they include this header.
