

close

```
graph LR; A[close] --> B["doris::vectorized::  
VExpr::close"]
```

A diagram illustrating a mapping or transformation. On the left, a gray rectangular box contains the text 'close'. A blue arrow points from this box to a larger white rectangular box on the right. The white box contains the text 'doris::vectorized::' on the top line and 'VExpr::close' on the bottom line.

doris::vectorized::
VExpr::close
