

```
doris::config::Properties  
::get_or_default
```

```
graph LR; A["doris::config::Properties  
::get_or_default"] --> B["convert"]
```

A diagram illustrating a function call. On the left, a white rectangular box with a black border contains the text `doris::config::Properties` on the first line and `::get_or_default` on the second line. A blue arrow points from the right side of this box to a gray rectangular box on the right. The gray box contains the text `convert`.

`convert`
