

start

```
graph LR; start[start] --> callback[_alter_tablet_worker_thread_callback];
```

The diagram consists of two rectangular boxes connected by a blue arrow. The first box on the left is white with a black border and contains the text 'start'. A blue arrow points from the right side of this box to the left side of a second box. The second box is gray with a black border and contains the text '_alter_tablet_worker_thread_callback'.
