

write\_zone\_map

doris::Status::OK

doris::Status::Status

```
graph LR; A[write_zone_map] --> B[doris::Status::OK]; B --> C[doris::Status::Status];
```

The diagram illustrates a three-step process flow. It begins with a gray rectangular box containing the text 'write\_zone\_map'. A blue arrow points from this box to a white rectangular box containing 'doris::Status::OK'. A second blue arrow points from the 'doris::Status::OK' box to a final white rectangular box containing 'doris::Status::Status'. All boxes have a thin black border.
