::execute_impl

doris::vectorized::
FunctionArraySlice::
execute_impl

slice_array

```
graph LR; A[doris::vectorized::FunctionArrayPopback::execute_impl] --> C[slice_array]; B[doris::vectorized::FunctionArraySlice::execute_impl] --> C;
```

The diagram illustrates two function pointers on the left, each enclosed in a white box with a black border. The top box contains the text 'doris::vectorized::FunctionArrayPopback::execute_impl'. The bottom box contains the text 'doris::vectorized::FunctionArraySlice::execute_impl'. Two blue arrows originate from the right side of these boxes and point towards a single gray box on the right labeled 'slice_array'.
