

update_profile

```
graph LR; A[update_profile] --> B["doris::vectorized::  
VCollectIterator::update  
_profile"]
```

A diagram illustrating a function mapping. On the left, a gray rectangular box contains the text 'update_profile'. A blue arrow points from this box to a larger white rectangular box on the right. The white box contains the text 'doris::vectorized::' followed by 'VCollectIterator::update' on the next line, and '_profile' on the third line.

doris::vectorized::
VCollectIterator::update
