```
graph BT; A["/Users/dabowang/doris<br/>/be/src/glibc-compatibility<br/>/musl/powf.c"] --> C["/Users/dabowang/doris<br/>/be/src/glibc-compatibility<br/>/musl/powf_data.h"]; B["/Users/dabowang/doris<br/>/be/src/glibc-compatibility<br/>/musl/powf_data.c"] --> C;
```

The diagram illustrates a dependency relationship between three files. At the top is a gray box containing the header file path: /Users/dabowang/doris/be/src/glibc-compatibility/musl/powf_data.h. Below it are two white boxes. The left box contains the source file path: /Users/dabowang/doris/be/src/glibc-compatibility/musl/powf.c. The right box contains the source file path: /Users/dabowang/doris/be/src/glibc-compatibility/musl/powf_data.c. Two blue arrows point from the top of each white box to the bottom of the gray box, indicating that both source files include or depend on the header file.
